Re: Case 16-11767-CMA
Northwest Territorial Mint, L.L.C, Debtor

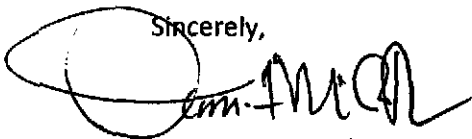

This letter is to file my opposition to the proposed sale of the Debtors assets listed as Graco Awards Manufacturing ("Graco"). This person and his string of companies, including Northwest Territorial Mint intentionally defrauded investors such as myself by continuing to advertise the sale of various precious metal coins and related items when he knew without doubt that the investors were never going to get the merchandise he had taken their money on. In addition, he continued to debit my credit card for more purchases and stated all coins were in safe keeping until a certain number of coins had been purchased. Just another part of his scam.

Instead of allowing this kind of fraud activity to be virtually forgiven in bankruptcy court, I believe all parties of the Northwest Territorial Mint should be charged with fraud and tried in court much the same way the New York crook did and is now serving the rest of his life in prison.

If you allow this escape of their intentional fraud acts, they will simply go on to their next scam.

Sincerely,

PH
